

November 10, 1980

Mr. Robert L. Campbell  
948 W. Chestnut  
Springfield, Missouri 65802

Dear Mr. Campbell:

On Monday, November 10, 1980, the City's Water Pollution Control Section received two citizen's complaints that a substance resembling crank case oil had apparently been drained or discharged from the north side of your property onto Chestnut Street. On investigation by personnel from this office, this discharge apparently flowed from the north side of your property onto Chestnut Street and east on Chestnut Street to the storm sewer.

Let me advise you that if this spillage is due to any activities on your part, this constitutes a violation of City, State, and Federal Water Pollution Laws. The Law contains severe penalties for the discharge of oil or petroleum products. This office maintains periodic surveillance throughout the corporate limits of the City and will watch this area closely.

Yours truly,

Karen Chandler  
Water Pollution Control Inspector II  
Surveillance & Enforcement

DATE March 4, 1980

DEPARTMENT \_\_\_\_\_

On Monday, March 3, 1980, J.D. Slaughter, Gene Pabst and I observed a substance resembling crank case oil on Broadway Street at the corner of Broadway and Chestnut Expressway.

On Tuesday, March 4, 1980, I talked with Robert Campbell of 948 West Chestnut Street. He said that he had parked a semi rig there and it had leaked. He fixed the leak immediately when he discovered it. There appeared to be about 12 Quarts of oil on the street. I advised him that such a discharge is a violation of City, State and Federal Law.
